

# East Bay — Overview

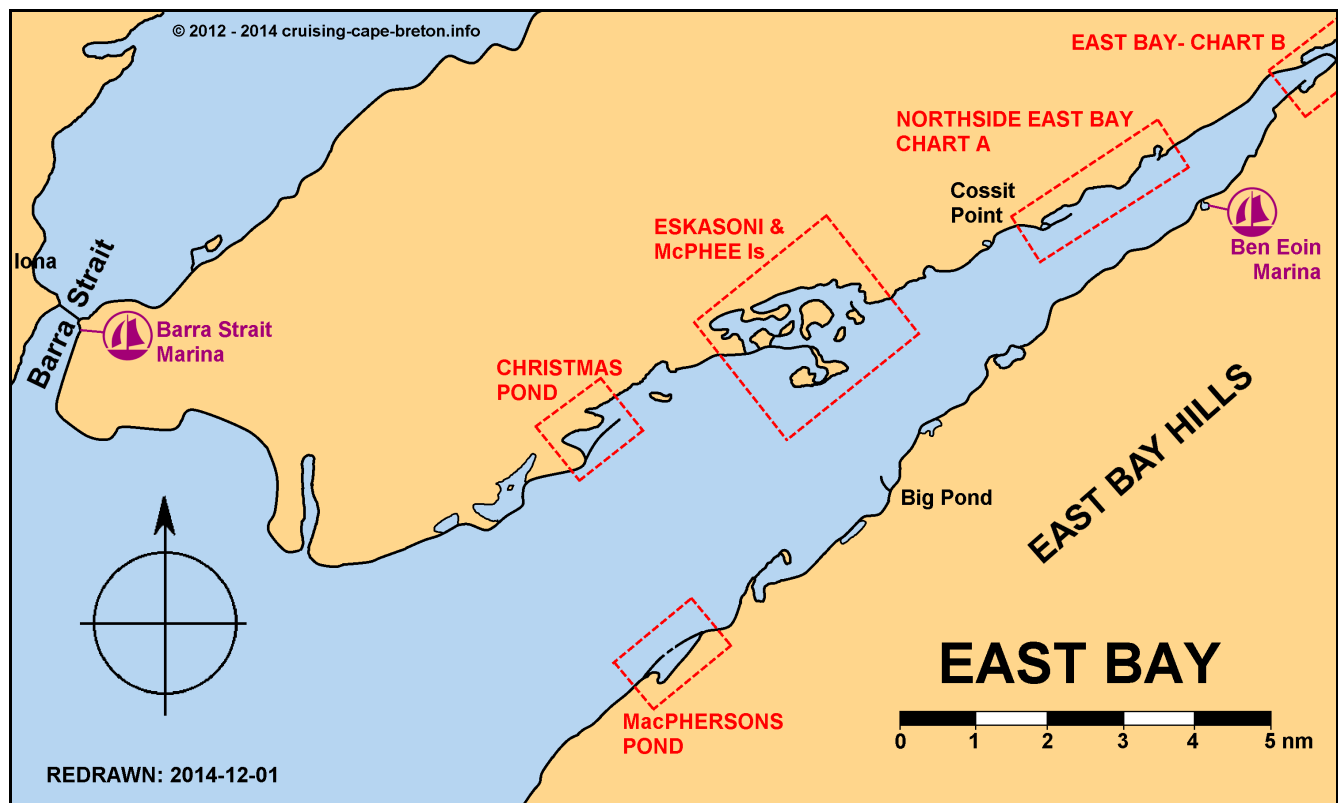

CHS Chart No: 4279 – Bras d'Or Lake

**Amenities:** Ben Eoin Marina (dockage, fuel, showers, water, pump-out)

## Description:

East Bay is quite a spectacular area with high hills on both sides and is very popular with local boaters, many of whom have cottages along its shores. It is especially popular with sailors, and provides some fine day-sailing. However, apart from the marina at Ben Eoin near the head of the bay, it has few anchorages of note to attract the cruiser, and the sheltered anchorages that exist tend to be crowded with moored boats.

Good anchoring and protection can be found in the McPhee Islands (Eskasoni) and dockage on a space-available basis at the Crane Cove Seafoods plant.
